

SCHEDULE EVPC**ELECTRIC VEHICLE PUBLIC CHARGING**AVAILABILITY

The Cooperative shall own and operate electric vehicle (EV) Level 2 (L2) and Direct Current Fast Charge (DCFC) charging stations available for public use in accordance with Commission Order No. 88997 in Case No. 9478. All public EV charging stations will be sited on property either owned by government entities or government associated organizations or controlled by those entities and organizations (such as through easements, right of ways, or similar legal or equitable mechanisms). EV operators who reside within the Cooperative's service territory or outside the Cooperative's service territory are eligible to use the Cooperative-owned charging stations. L2 charging stations shall cover all applications at 208/220/240 voltage levels with demand loads ranging from approximately 3 to 13 kW. DCFC charging stations cover applications with demand loads from approximately 50 to 150 kW. All such users must register and maintain an active account with the Cooperative's network provider and provide all required information, prior to using the charger. Applicable rates are shown below and are subject to change upon approval by the Commission.
