

**SCHEDULE GSND**

**GENERAL SERVICE NON-DEMAND**

AVAILABILITY

This schedule is closed to new accounts after 10/1/2016. Available to commercial and industrial Customers and all schools, churches and community halls throughout the area served by the Cooperative for all uses where the peak demand is less than 25 kW and no demand meter is installed, subject to the established rules and regulations of the Cooperative.

TYPE OF SERVICE

Single-phase or three-phase where facilities are available, 60 hertz, at standard voltages of the Cooperative.

RATES

Customers receiving Standard Offer Service as defined in the General Terms and Conditions will pay A) the Standard Offer Service Charge, B) the Distribution Charge, and C) the Facilities Charge. These Customers will also pay the monthly purchased power cost adjustment.

Customers choosing an alternative Electricity Supplier as defined in the General Terms and Conditions will pay B) the Distribution Charge, and C) the Facilities Charge. These Customers will not pay the monthly purchased power cost adjustment. Such rates are exclusive of all applicable alternative Electricity Supplier rates and charges.

PURCHASED POWER COST ADJUSTMENT CLAUSE

Charges for Standard Offer Service (SOS) Customers are subject to a monthly Purchased Power Cost Adjustment (PPCA), which may be a charge or a credit. The PPCA is calculated monthly to recover differences between the actual costs incurred for power supply for SOS Customers and the amount of costs recovered from SOS Customers through the SOS base charges. The monthly PPCA factor will be calculated using twelve-months of historic and projected power supply costs, kWh sales, and the cumulative over/under recovery balance. The factor will be revised each month based upon the most recent monthly information.

The formula used in the PPCA Model to true-up the actual purchased power costs to the projected base cost of purchased power built into the SOS rates is:

$$PPCA = (PC - S * B + R) / S$$

Where,

PC = power costs

S = kWh sales

B = base SOS rate

R = cumulative over/under recovery

PUBLIC SERVICE COMPANY FRANCHISE TAX

A charge each month of 0.062 cents per kWh shall be applied to all kWh sales.

MARYLAND ENVIRONMENTAL SURCHARGE

A charge each month shall be applied to all kWh sales at the current rate set by the Maryland Public Service Commission.

CONDITIONS OF SERVICE

Without the written permission of the Cooperative, the rated capacity of single-phase motors shall not be in excess of five horsepower (5 hp).

TERMS OF PAYMENT

The above rates are net, the gross rate being 1.5 percent higher. In the event the current monthly bill is not paid within 20 days after the rendition of the bill, the gross rate shall apply. If the bill remains unpaid before the end of the next nominal billing period, an additional charge to be made equal to 1.5 percent will be assessed on any portion of the original amount which remains unpaid at the time, and at the end of the second nominal billing interval, an additional charge to be made equal to 2 percent will be assessed on any portion of the original amount which remains unpaid at that time. The total of these charges may not exceed 5 percent.
