

Save Energy, Save Money

The Small Business Solutions Program helps small nonprofits and owners of small businesses sustain a competitive position in their field by aiding them in managing and reducing their energy costs. Whether you own a convenience store, serve at a place of worship, or run a small family business, you can reduce your energy costs while enhancing workplace comfort.

The Small Business Solutions Program offers small business customers the opportunity to retrofit existing equipment with more energy-efficient technologies.

Key Features

- **Comprehensive on-site energy analysis** and recommendations to improve your overall efficiency.
- **Up to 80 percent coverage of total cost** for most lighting, smart thermostat, and refrigeration control retrofit projects—plus some related expenses.
- **Approved contractors** make upgrading easy.
- **Equipment installed** at your convenience.
- **Removal and environmentally responsible disposal** of old fluorescent lamps and ballasts.

Benefits for Your Small Business

- 1** Energy-efficient technologies **reduce your energy use and costs.**
- 2** Retrofits offer a **quick return on your investment**—often in less than one year.
- 3** Energy-efficient equipment streamlines operations and can **boost workplace productivity** and **employee comfort.**

Equipment

Upgrade to qualifying energy-efficient equipment, which may include:

- Interior lighting and lighting controls
- Exterior LED lighting and lighting controls
- Smart thermostats
- Refrigeration control and efficiency technologies

Eligibility

The Small Business Solutions Program is available to commercial customers in the SMECO service territory with rate codes 401, 402, 403, and 404 with demand of less than 60kW.
