

Choose Your Route to Savings

Improve your home's energy efficiency with SMECO's Home Performance with ENERGY STAR® and Quick Home Energy Check-up programs. **How—and how much—you save is your choice.**

SMECO.coop/save

Two Ways to Save Energy and Save Money.

Home Performance with ENERGY STAR® (Direct Route)

- The best way to maximize your energy and cost savings.
- A comprehensive home energy audit, performed by a skilled participating contractor, using diagnostic tests to determine specific energy-saving opportunities in your home.
- Installation of simple, energy-saving measures like compact fluorescent lights (CFLs), faucet aerators, and more.
- A discounted price of only \$100* for a home energy audit (a \$400 value) and rebates up to \$2,750 on the improvements you choose to make.

Quick Home Energy Check-up (Shortcut)

- A quick first step to help you save energy and save money.
- A one-hour visual inspection of your home, performed by a SMECO Check-up professional, and recommendations for improving its energy efficiency.
- Installation of simple, energy-saving measures like CFLs, faucet aerators, and more.
- No additional cost to you.
