

Stay cool for less this summer!

Want to beat the heat *and* reduce your cooling costs?

SMECO can help with energy-saving programs and **rebates of \$100–\$750** for energy efficiency upgrades and services.

SMECO
People. Power. Progress.

[SMECO.coop/save](https://www.smecho.coop/save)

SMECO has a variety of ways to help you reduce energy use and increase your savings.

Programs and Rebates to Maximize Savings

- Upgrade to high-efficiency cooling equipment and get rebates up to \$500.
- Tune up your cooling system with a Performance Tune-up and get a \$100 rebate.
- Have your ductwork properly sealed and get a \$250 rebate.
- Schedule a Quick Home Energy Check-up at no additional cost.
- Take advantage of SMECO's other energy efficiency programs and rebates.

Simple Tips to Help You Start Saving Now

- Set your programmable thermostat to 78°F.
- Close curtains and blinds during the day.
- Keep registers open and clear of furniture.
- Clean or replace air filters monthly.
- Weather-strip around doors, and caulk around windows.
