

Cozy up to our fall lineup of programs and rebates.

New television shows aren't the only programs worth checking out this fall. SMECO can help you prepare your home for cooler temperatures—and help you save energy and save money.

Visit SMECO.coop/save for program details.

Save energy and save money this fall and winter.

Take a whole-house approach with Home Performance with ENERGY STAR®. For a discounted price of just \$100* (a \$400 value), a participating contractor will perform a comprehensive home energy audit to determine specific energy-saving opportunities in your home. **Rebates up to \$2,750** are available to help with the cost of the improvements.

Get ready for colder weather now! Visit **[SMECO.coop/save](https://www.smecho.coop/save)** to find a participating Home Performance or Heating and Cooling contractor.

**\$100 offer valid for homes up to 3,000 square feet with a single combustion appliance zone. Audits on larger homes or ones with multiple combustion appliance zones may cost more than \$100 and customer-members should discuss fees with their selected participating contractor.*

Focus on your heating system. SMECO offers **rebates from \$100–\$750** for energy-saving heating equipment and services. Have your ductwork properly sealed, upgrade to new equipment, or simply tune up your existing equipment with a Performance Tune-up.
