

See your home in a boo-tiful new light.

Upgrade to energy efficient ENERGY STAR® CFL or LED light bulbs in your outdoor lighting for more safety and security when ghoulish guests drop by. **Beware!** You'll save energy and save money too.

Visit SMECO.coop/save for a list of participating retailers.

Rebates so quick, it's scary.

SMECO is offering discounts on qualifying ENERGY STAR compact fluorescent lights (CFLs) and light-emitting diode (LED) light bulbs at participating retailers in your area. The savings are included in your purchase price right at the register.

- ENERGY STAR qualified CFLs: **up to \$2.25 instant rebate** per bulb
- ENERGY STAR qualified LEDs: **\$10 instant rebate** per bulb

Keep on saving.

CFLs last up to 10 times longer than incandescent bulbs and use 75% less energy—saving you money. LEDs give off light in a specific direction, which means reduced energy use, energy cost savings, and less frequent bulb replacements.

Get the right light.

Not all bulbs are designed for outdoor use. Check the packaging on CFLs and LEDs carefully to make sure you choose bulbs that can be used in outdoor fixtures.

Visit [SMECO.coop/save](https://www.smechoop.com/save) or call **877-818-4094** to learn more about qualifying bulbs.
